A Half Day Program on "An Overview of Drug Life Cycle Processes in the Pharmaceutical Industry" (An Interactive Session for Students & Teachers by Industry Professionals)

Program Description:

This program is aimed at providing an industry perspective of the drug life cycle processes comprising of initial Drug Development, Manufacturing and Distribution to Fresh graduates, students and teachers in Pharmacy & Science disciplines. The Pharmaceutical and Biotech industry in India has a dire need for graduates exposed to the kind of knowledge required in the industry. This forum is an attempt to expose the academic personnel including fresh graduates/ senior students / Teachers to an overview of various processes of the pharmaceutical & Biotech industry, beginning from the drug discovery process, different phases of clinical trials, manufacturing stages and market distribution & surveillance. The coverage will enable students and faculty to appreciate the current knowledge requirements in the industry and explore area of interest in pursuing a career in pharma / biotech industry.

The program will also include Q & A interaction with industry professionals and provides a unique platform to discuss career options for the students and fresh graduates.

About ISPE:

ISPE, International Society for Pharmaceutical Engineering, is the world's largest 'Not-for-Profit' association of pharmaceutical manufacturing professionals dedicated towards sharing knowledge and experience among the industry, academia and regulators.

Founded in 1980, today, ISPE has more than 25,000 members in 90 countries. ISPE has been recognized by the White House and regulatory bodies globally, especially, the US FDA, EMEA, SPIC, DCGI and TGA, for contributions to the industry. We are an independent organization led by the world's top pharmaceutical manufacturing professionals, providing an inviting and neutral environment for experts, technologists, regulators, consultants and students to exchange ideas and practical experience. As a vibrant community, ISPE's Members work together to share knowledge in the industry, while helping each other make more educated decisions, quicker than ever before.
